
Getting started

What to gather before your first call

You don't need all of these. Send what you have and we'll tell you what's missing. Each one saves time and money later.

- ☐ The address, and the lot and DP (deposited plan) number from the rates notice or title.
 - ☐ The contract for sale, if you have it: it includes the planning certificate, title search and sewer diagram.
 - ☐ A section 10.7 planning certificate, ordered from the council if it isn't in a contract.
 - ☐ The title search and any section 88B instrument, from NSW Land Registry Services or a search broker.
 - ☐ The sewer service diagram, from Sydney Water (or your local water authority outside Sydney Water's area).
 - ☐ Any survey of the site. A detail survey showing levels, trees and the neighbouring buildings is ideal.
 - ☐ Past approvals for the site, from the council's online application tracker.
 - ☐ Photos of the site, the street and both neighbours.
 - ☐ What you want to build, in a sentence, with a rough budget and your key dates, such as an exchange date.
-
